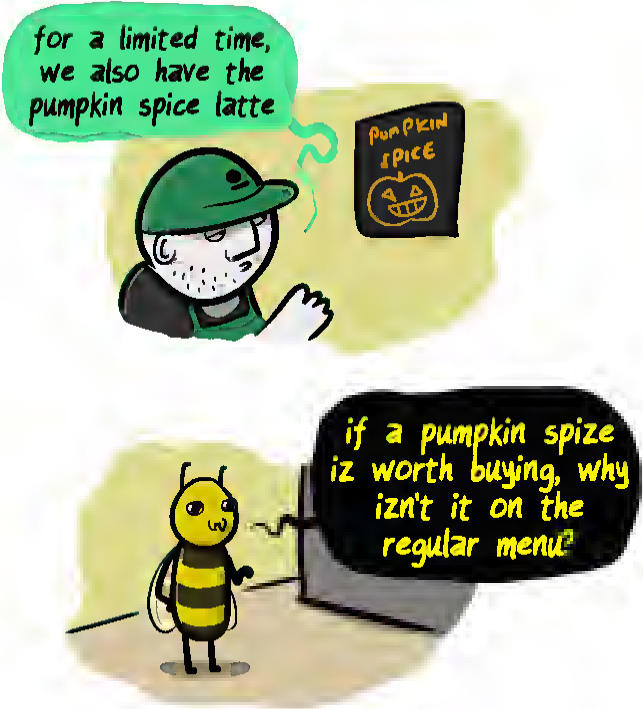
PS



for a limited time, we also have the pumpkin spice latte
PUMPKIN SPICE
if a pumpkin spize iz worth buying, why izn't it on the regular menu?

it's a fall special
but iz it taztier than the regular honey nut latte?

look, little bee

i don't make the decisions on what we serve

i'm letting you know we have something different on the menu
as far as i can tell, the pumpkin spice latte is a sweet and creamy coffee with cinnamon
if you don't want to try it, don't try it

personally, i like trying something new once in a while
but that's just me
if you want to get the same drink you get everytime,
i'll make you your honey nut latte

but thiz will be my firzt latte of any kind!
PS

i like the pumpkin spice
PS

okay
i'll get one pumpkin spize latte
